PERFORMANCE MANAGEMENT FRAMEWORK

Learning Objectives:

By the end of this session, students will be able to:

- **Define** what a performance management framework is and explain its purpose.
- **Identify** different types of performance management frameworks used in business and education.
- **Analyze** how each framework can be applied in an educational institution like NU Laguna.
- **Differentiate** between frameworks
- **Evaluate** the benefits, challenges, and best practices for implementing these frameworks.
- **Apply** the concepts by developing sample performance measures for NU Laguna's academic and sports programs.

INTRODUCTION

- Performance management frameworks provide structured approaches to align daily activities with long-term strategic objectives. This module explores Balanced Scorecard (BSC), Performance Prism, EFQM Model, OKRs, and Hoshin Kanri, highlighting their applications in business and educational institutions.

What is Performance Management Framework?

Performance Management Frameworks

A performance management framework is a structured method to **plan**, **monitor**, and **evaluate** **performance** against strategic objectives.

Purpose: It ensures that daily activities are aligned with long-term goals.
Example: NU Laguna tracks graduation rates, faculty training hours, and student satisfaction to ensure its mission is met.

NU LAGUNA
NU SPORTS ACADEMY

Importance in Business & Education

In Business: Aligns departments with strategic objectives, fosters accountability, and enables data-driven decisions.

In Education: Monitors academic performance, extracurricular success, and student engagement.

NU Laguna Example: Aligning sports achievements with academic excellence and community service.

NU LAGUNA
NU SPORTS ACADEMY

How framework works?

5-Step Cycle:

1. **Define objectives** → Improve student retention.
2. **Translate into measurable targets** → Increase retention to 90% in 1 year.
3. **Collect & analyze data** → Track dropout statistics and exit interviews.
4. **Review & adjust** → Implement mentoring programs.
5. Repeat for improvement.

Frameworks

Balanced Scorecard (BSC)

- The Balanced Scorecard (BSC) is a framework for evaluating a company that goes beyond its financial performance to also take into account the organization's success in satisfying customers, operating effectively, and innovating for the future.
- This four-pronged approach to grading a company was introduced by business scholars Robert S. Kaplan and David P. Norton in a Harvard Business Review article in 1992.

Balanced Scorecard

NU LAGUNA
NU SPORTS ACADEMY

When to use the Balanced Scorecard?

- ✓ Translate strategy into action
- ✓ Improve communication and alignment
- ✓ Monitor performance across various areas
- ✓ Drive continuous improvement

NU LAGUNA
NU SPORTS ACADEMY

Balanced Scorecard – Example (NU Laguna)

- Financial: Tuition revenue growth
- Customer: 90%+ student satisfaction rating
- Internal: Reduce enrollment processing from 5 days to 2 days
- Learning & Growth: Train 100% of faculty annually

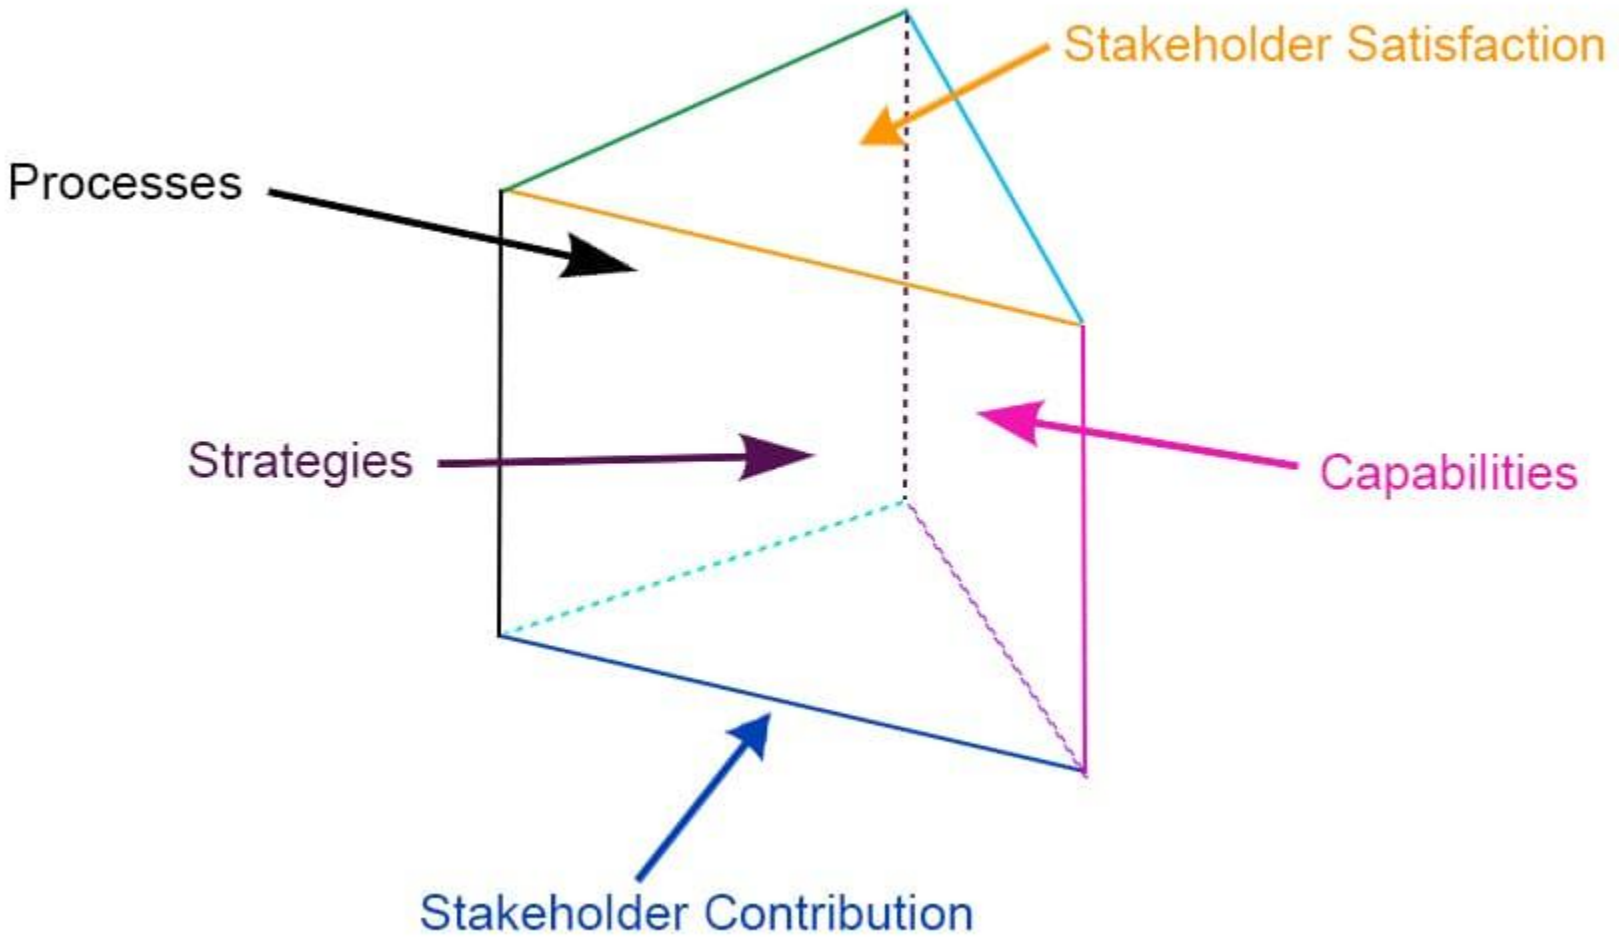

NU LAGUNA
NU SPORTS ACADEMY

Performance Prism

- The Performance Prism is a multidimensional framework designed to measure and manage organizational performance.

- The Performance Prism promotes sustainable success and continuous improvement by focusing on stakeholder contributions. It offers a comprehensive perspective that integrates performance outcomes and the means to achieve them.

NU LAGUNA
NU SPORTS ACADEMY

NU LAGUNA
NU SPORTS ACADEMY

Example:

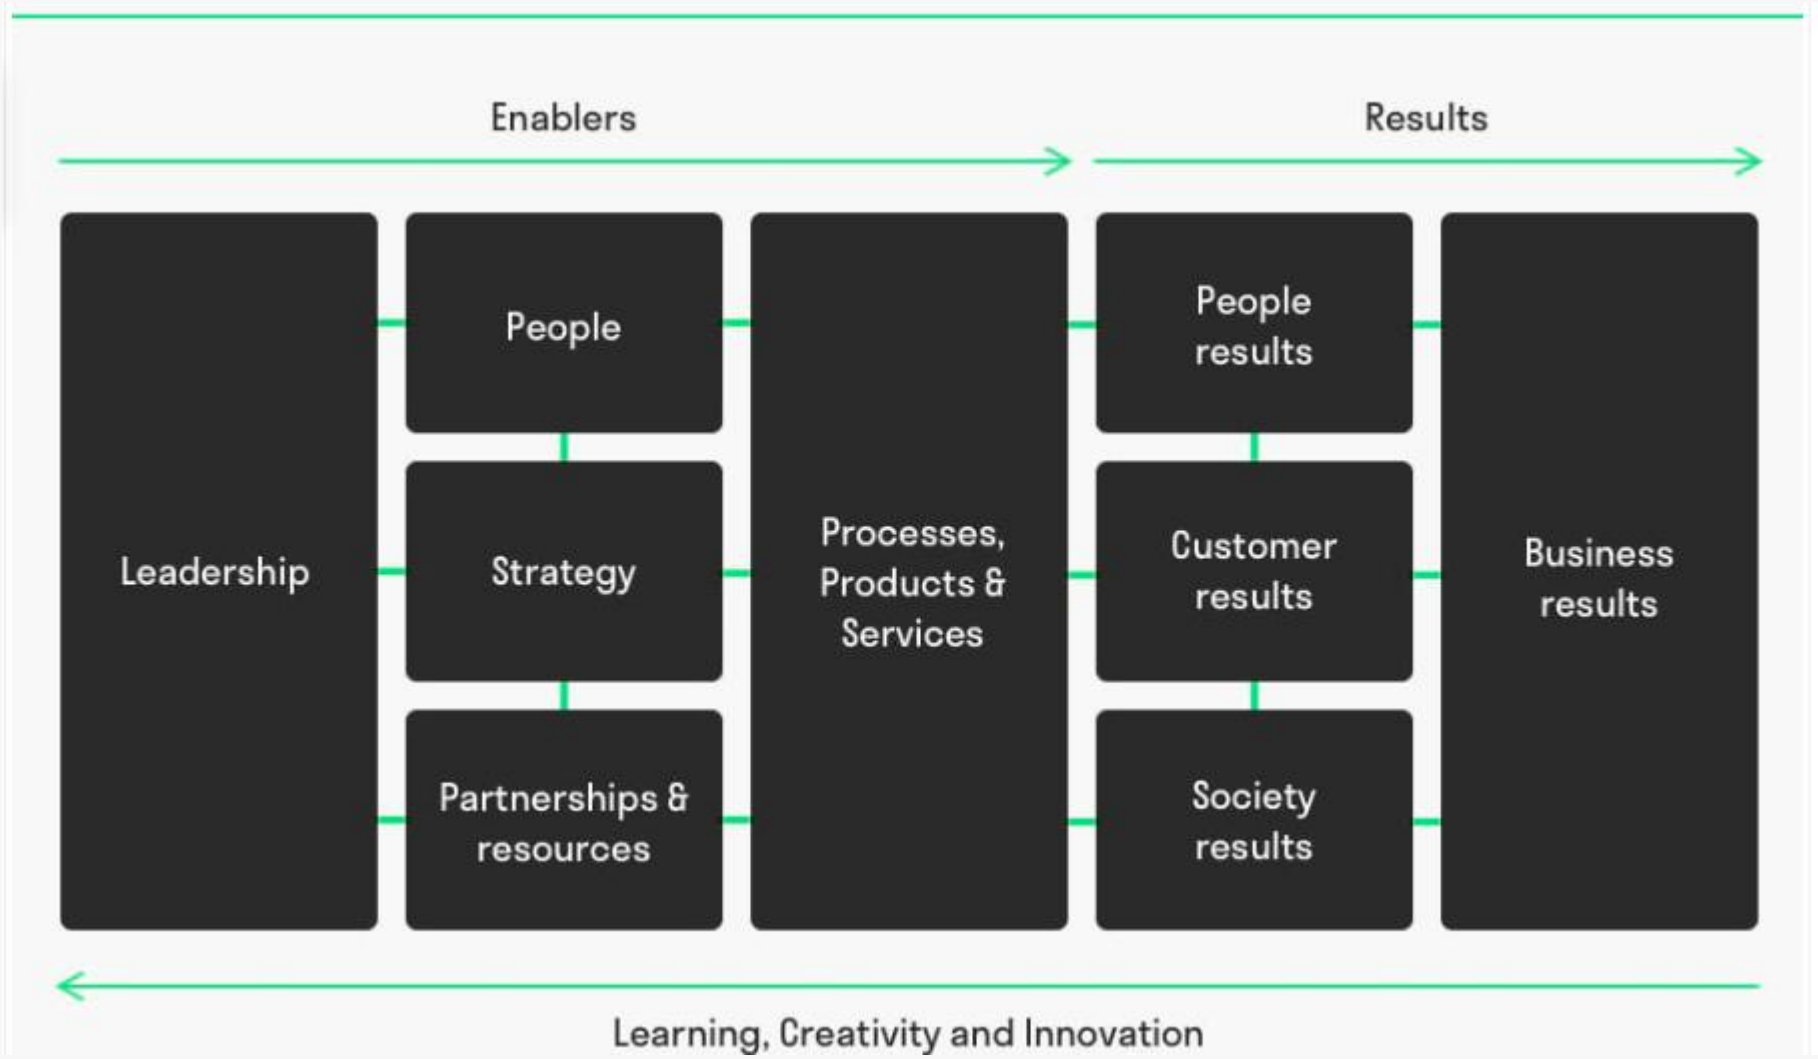

- ✓ **Stakeholders:** Students, alumni, employers
- ✓ **Strategy:** Strengthen alumni connections
- ✓ **Process:** Launch mentorship programs
- ✓ **Capability:** Develop online alumni platform
- ✓ **Contribution:** Alumni provide internships & jobs

EFQM Excellence Model

- “EFQM” stands for the **“European Foundation for Quality Management”**.
- In its latest version, it is based on seven criteria and helps to **understand and analyze the behavior, thinking and culture of an organization** – always with the aim of improving operational performance in all areas and at all levels.

Objectives & Key Results (OKRs)

- Objectives and key results (OKRs) are a leading goal management framework that helps individuals, teams, and entire organizations reach their goals through identifiable and measurable results.
- To help you get a complete understanding of what is an OKR, we've compiled the most important information on what OKRs are to give you a quick yet complete overview.

NU LAGUNA
NU SPORTS ACADEMY

What are OKRs?

OBJECTIVES AND KEY RESULTS

OKRs are a management methodology which helps to ensure that your company focuses efforts on the same important issues throughout the organization.

OBJECTIVES

An Objective is what you want to accomplish.

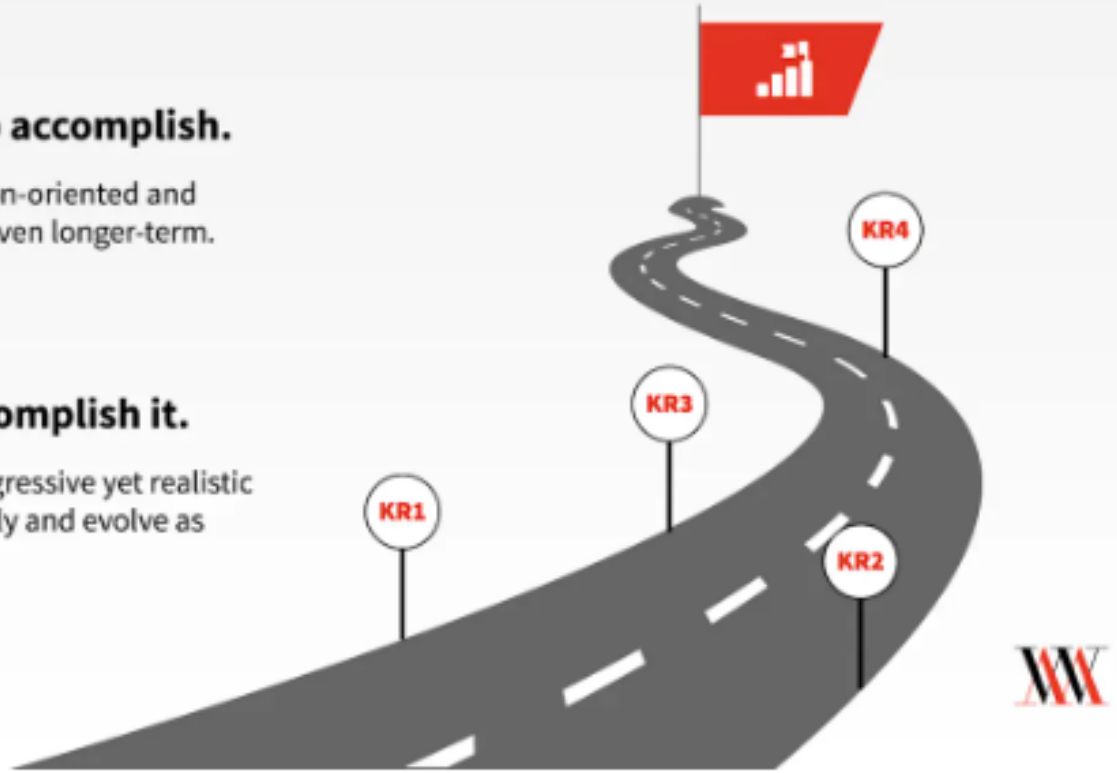

A good Objective is significant, concrete, action-oriented and inspirational. Can be set annually or over an even longer-term.

KEY RESULTS

Key Results are how you will accomplish it.

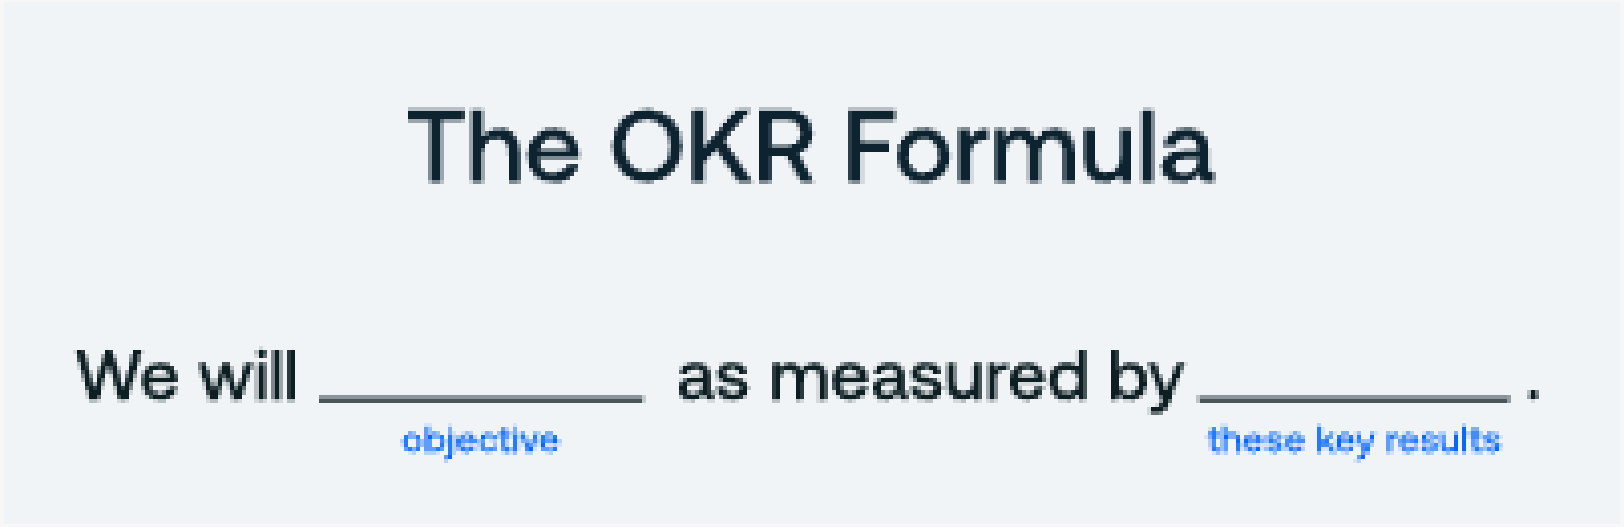

Good Key Results are specific, timebound, aggressive yet realistic measurable and verifiable. Can be set quarterly and evolve as work progresses.

What Matters

OKR Formula

NU LAGUNA
NU SPORTS ACADEMY

What are objectives?

The objective of an OKR goal should be hard — the point is to push yourselves as a team or organization. When writing your OKR's objective, keep the following qualities in mind:

- OKR objectives are “stretch goals” or “moonshots,” pushing the limits of your team’s capabilities while remaining within the realm of possibility
- OKR objectives are limited in number, which constrains focus to core priorities
- OKR objectives are designed with your business strategy, mission, and vision in mind

NU LAGUNA
NU SPORTS ACADEMY

What are key results?

Your OKR's key results are quantitative metrics that measure progress toward your objectives.

For each OKR objective you create, you'll typically assign two to four key results. Here are some example key results that could be used for the example objective above:

- **Example key result 1:** Rank number 1 in search for our top 5 keywords.
- **Example key result 2:** Build a Slack community of 10,000 relevant and active members.
- **Example key result 3:** Reach 30,000 unique page views per month on our blog.

Hoshin Kanri – “Policy Deployment”

- Hoshin Kanri is a strategic planning and execution method that aligns the organization’s long-term vision with its day-to-day operations.
- Originated in Japan (Toyota, Bridgestone, etc.) as a way to ensure everyone in the company is working toward the same goals.

The phrase can be translated as:

Hoshin = Direction, focus, compass needle

Kanri = Management, control

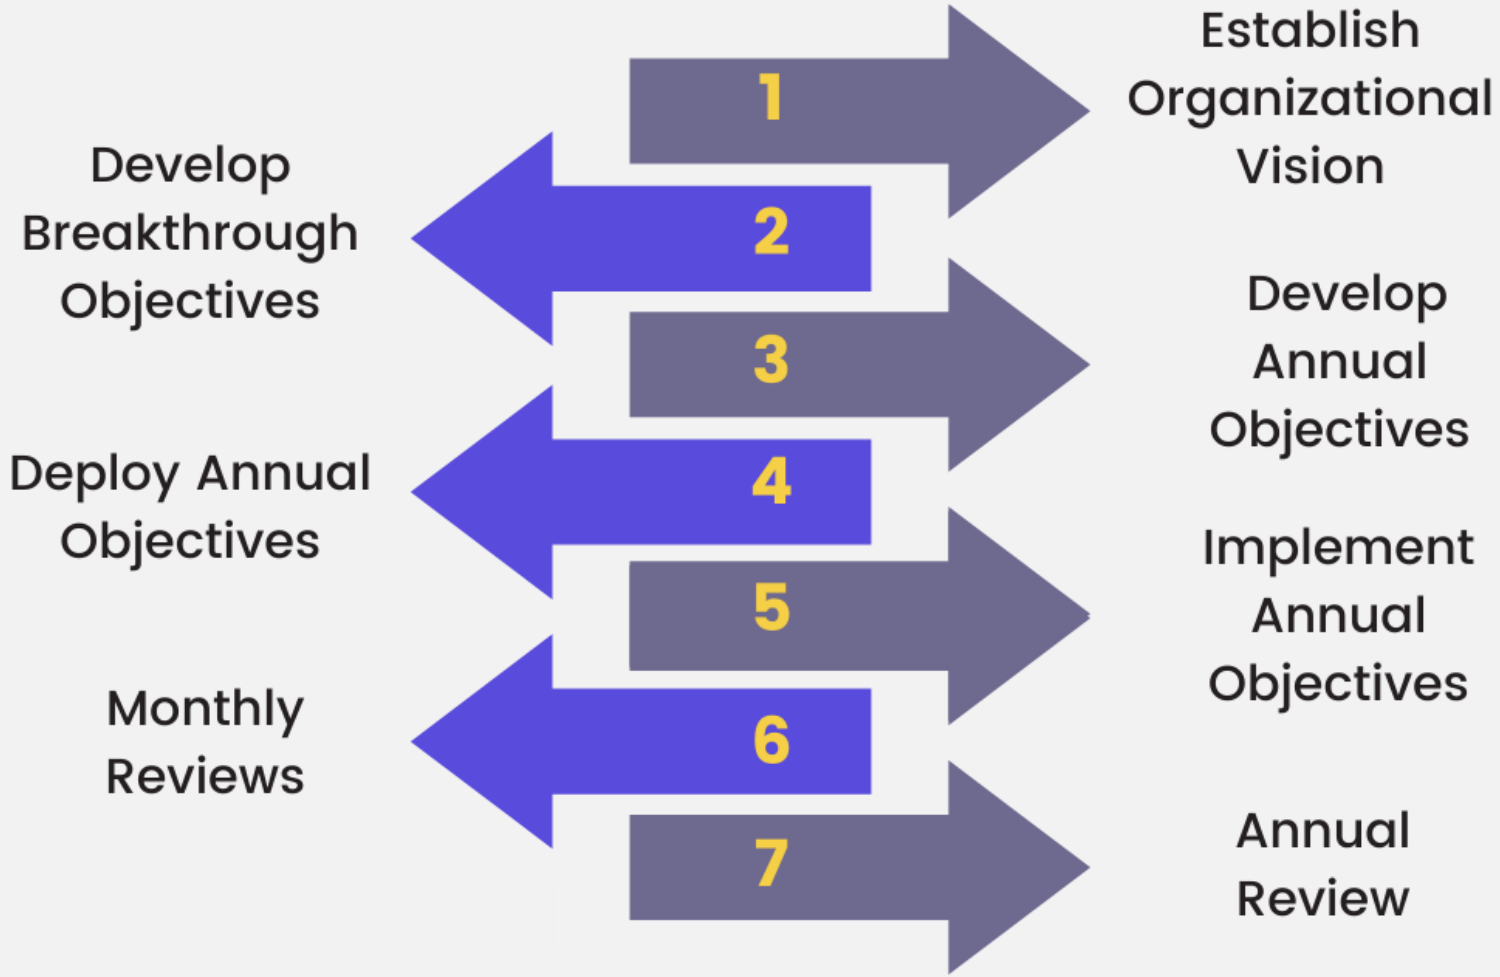

NU LAGUNA
NU SPORTS ACADEMY

Hoshin Kanri Concept

- **Catchball**: A back-and-forth communication process between management and employees to refine goals and action plans collaboratively.
- **PDCA Cycle**: Plan–Do–Check–Act for continuous improvement.
- **Focus on Few Priorities**: Rather than chasing too many objectives, Hoshin Kanri focuses on the vital few

NU LAGUNA
NU SPORTS ACADEMY

The 7 Hoshin Kanri Processes

NU LAGUNA
NU SPORTS ACADEMY

Hoshin Level	Objective	Metric	Responsible Department
Vision (5 years)	Be the top sports-academic university in PH	National rankings, recognition awards	All departments
Breakthrough Objective	Improve national sports rankings to Top 3	Rank position in national tournaments	Sports Dept.
Annual Objective	Win 2 gold medals in national collegiate sports events	Medal count	Sports & Training Dept.
Department Plan	Implement new athlete training schedules and nutrition	Number of athletes meeting fitness goals	Coaching Team
Operational Action	Hire nutritionist, upgrade gym equipment	Equipment quality rating, nutrition plans	Facilities & HR

NU LAGUNA
NU SPORTS ACADEMY

Benefits of Hoshin Kanri

- Clarity & focus
- Alignment
- Engagement
- Measurable results

QUESTIONS?

ASSESSMENT

Case Study

NU Laguna plans to enhance academic and sports excellence simultaneously.

- Apply Balanced Scorecard perspectives to this case.
- Compare Performance Prism and BSC approaches.
- Develop one OKR example for academic improvement.
- Discuss challenges in implementing performance frameworks.
