LESSON 1

EVALUATION OF BUSINESS PERFORMANCE

MANAGING PEOPLE, TEAMS, AND PERFORMANCE

CIEVBUPE

- This course offers an introduction to the foundations and practical applications of business performance management and evaluation. Effective performance management supports decision makers by providing an accurate assessment of their organization’s status quo, and by pointing to valuable opportunities for future action.

What went Wrong?

A company has experienced a 20% decline in productivity over the past six months. Management discovers the following:

- Employees frequently arrive late or are absent.
- Team members are unclear about their responsibilities.
- High-performing employees feel that their efforts are not recognized.
- Managers rarely provide feedback.
- There are frequent conflicts between departments.
- Several experienced employees have recently resigned.
- Despite these problems, the company continues to set higher performance targets.

The People → Performance Chain

Miss a link, and business performance suffers — this is why managers are evaluated on people outcomes, not just output.

- **Top Management:** Sets the overarching direction and carries the ultimate accountability for the business's overall performance.
- **Middle Management:** Acts as the strategic bridge. They take the high-level strategy and translate it into specific team goals while managing other managers.
- **Line / Team Managers:** The frontline leaders. They handle day-to-day people management and operate closest to individual and operational performance.

From Individual to Teams

Managing a collection of individuals is not the same as managing a team. A team creates results no single member could produce alone.

A Group	A Team
• Individual accountability	• Shared accountability
• Personal goals	• Common goals
• Independent tasks	• Interdependent tasks
• Manager-led coordination	• Shared coordination

Tuckman's Stages of Group Development

Forming	***Storming***	***Norming***	***Performing***	***Adjourning***
The forming stage occurs when team members first come together as a team.	During the storming stage, teams discover teamwork is more difficult than they expected.	The norming stage begins as the team moves beyond the storming stage and begins to function as a team.	When a team reaches the performing stage it is functioning as a high performance team.	Breaking up the team when the required task is complete.
